Designated Landmark Eligible -YES
Individually National Register Eligible – YES
Inside Historic District (contributes) –YES
Theme – Industry Era (pre-railroad)

Narrative Description of Property:

This 1 ½ story wood framed home built approx. 1889, in the Gothic Revival style. The façade is gable ended with a set of paired 4/4 narrow windows on the second floor. The first floor façade windows are also 4/4 paired, narrow and they are nearly to the floor of the full front porch. The porch is supported by square columns. The west elevation has three sets of paired 4/4 windows with corresponding paired eyebrow windows above. The east elevation has one eyebrow window (facing away from the main road). There is an interesting molding on the thick cornice that is around the entire perimeter. There is a brick chimney on the west elevation and a rear addition. The entry is simple with side lights. There is a porch on the east elevation. Buildings that were here before 1889 are referred to in the 1860 map as a cooper shop.

Significance: The criteria of eligibility are associated to Criterion A & C (Properties significant for their association in or linkage to events and architecture/artistic value) for its significance to the history of Northville and mostly this is an excellent example of a Gothic Revival in the village. There is only one other Gothic Revival home in the village besides this one and there is no other house like this one in the entire town.
